Compensation Coverage

The following is an overview of our compensation coverage and does not include important information about our insurance policy. Some matters may be unfavorable or require special attention for certain customers like those that do not pay for insurance. To learn more, please contact Carstay Customer Service.

1. Liability Compensation

■ Bodily injury insurance

Amount: Unlimited (for any one person)

If you are legally liable for causing bodily injury to another person due to an accident involving a van booked through Carstay (hereinafter, referred to as "Contracted Van"), we will cover medical expenses, compensatory damages, and lost wages for missing work that exceed the amount covered by any compulsory automobile liability insurance. Unlikely events like death and subsequent disability will also be covered.

■ Property damage insurance

Amount: Unlimited (for any one person)

Amount: Unlimited (for any one accident)

If you are legally liable for damages to someone's car, telephone pole, fence, and other properties due to an accident involving Contracted Van, we will cover repair costs. In addition, we will cover transportation rerouting costs if Contracted Van has an accident or stalls on railroad tracks.

■ Totaled vehicle repair

Amount: ¥500,000 (maximum)

In the event of an accident covered by a property damage liability insurance that you are paying for and the cost to repair the other person's vehicle exceeds the cash value assigned to it, we will cover up to ¥500,000 of the cost that exceeds the amount covered by your insurance provided that the totaled vehicle is repaired within six months from the day of the accident.

2. Personal Injury Compensation

- Bodily injury insurance (for any one driver or passenger)

Amount: ¥3,000

If you are injured caused by an accident involving Contracted Van, we will compensate you not only for medical expenses but also for lost wages due to missed work and mental trauma. Unlikely events like death and subsequent disability will also be covered.

3. Vehicle Compensation

- Automobile insurance

Deductible (self-pay): ¥150,000 (maximum)

In case of damage to Contracted Van due to any accident and you decided to make the repair or provide a replacement without repairing the damage to the original, we will issue payment equal to the cash value (i) (ii) assigned to it. (However, if the repair cost is less than the insured amount, we will only pay the repair cost.) (iii)

(i) This refers to the market price value equivalent to vehicle of the same model, type, name, specifications, and year as Contracted Van with the same degree of wear.

(ii) If Contracted Van is equipped with accessories or original work, we will issue additional payment of up to ¥100,000 according to estimated value. That means the maximum payment would be Contracted Van's cash value + ¥100,000. However, compensation policy will not apply to parts and accessories that are prohibited by law, not equipped in the vehicle, or considered luggage.

(iii) If the insurance company issues payment for the actual cash value of Contracted Van determined as a total loss, the said company will acquire and take over the ownership and other property rights of the totaled Contracted Van.

4. Other Sums Payable

- Emergency road service

If Contracted Van suffers from any mechanical breakdown, tire damage, or collision on the road and becomes impossible or unsafe to be driven, we will issue payment for transportation costs that incurred from trip interruption.
